

# Is it true that “Te bevi Laško and te pissi Union”?

DIEGO MANNA

*Monon Behavior Research Department*

## Abstract

*One of the greatest dicotomy of the triestin life is the struggle between Union and Laško. In every grigliate or festin there is always one of the two pivos, and there are a lot of cultural monadas about them. One of these monadas affirms appunt that “Te bevi Laško and te pissi Union”. We investigate if this is true.*

**Key words:** felice, giulivo, pivo, forza union, kluke

## Introduction

Union vs Laško is one of the millenarian conflict in the triestin festaiolic life. A lot of people prefer Union (for example the Ultras of the soccer team Triestina) and a lot of people prefer Laško. We will call this conflict “the pivo war” (Fig. Pivo). In this study, we prefer the word “Union” because it doesn't have any kluka that is a great casinaz to insert in the text every time we write “Laško”. This pivo war became every year more and more aggressive and pupaiolic, and a lot of proverbs were created by the two fazions. Very famous are “Bevo pivo finchè vivo, bevo Laško finchè casco” or “Son felice son giulivo perchè bevo laško pivo”, “Anche Gesù da vivo beveva Union pivo” and “Pijem Laško ščijem novo flaško”. But one of these mode of dir passed the line, and incuriosited the sciemntific community (cioè noi): “Te bevi Laško and te pissi

**Fig. Pivo.** *The protagonists of the Pivo war.*

Union”, that is an evident great accuse to the quality of the Union pivo. Some bevandelic researchers affirm adiritur that the Union is produced at the thermal stabiliment of Laško. The turist enters, drinks a lot of Laško, and then if he want to go out without paying he have to make a great pissade in a secret pivo vasc. We investigate if this is true or not, ciò.

### **Material and methods**

To establish if the great accuse is true, we use the *third person imbriaghela evaluation method*. This method consists in ciapping a group of imbriaghele and giving them three different bokkals of pivo, sconding the etichets: in one there is the Laško, in one the Union, and in one the pissade of Toni Cimberle after a night of heavy Laško inciukking. We registered their reaction. At the end, they will be really incocaleeds so you can go away without paying the pivos and without paying them. Even better, you can drink a lot of pivos with them without paying, but pay attention not to drink the bokkal of Toni Cimberle's pissade.

### **Results**

The main vocalization emitted by the imbriaghele study group after drinking the bokkals of Union was: “Par bona, ma sa che no go capì ben, dame un'altra e te digo, dei”.

The main vocalization emitted by the imbriaghele study group after drinking the bokkals of Laško was: “Par bona, ma sa che no go capì ben, dame un'altra e te digo, dei”.

The main vocalization emitted by the imbriaghele study group while drinking

the bokkals of Toni Cimberle's pissade was: “Sta bira xe fiapa e calda, remengo vostro”.

After several hours and several bokkals, the reactions changed and also the Toni Cimberle's pissade appeared good to the study group, but at this time the study was yet stopped because heavily compromised.

### **Discussion**

The imbriaghele study group appears to enjoy both the pivos, Union and Laško, apparently following the philosophy “the importance of being ciukk” (Latpil, 1980eciapilo). However, when they was still in condition of intender and voler, they didn't like Toni Cimberle's pissade, so it is evident that it is not comparable with Union pivo. So, it is also evident that the thermal stabiliment of Laško didn't have the hypothetic secret pivo vasc. However, we think that a real pivo vasc (with Laško or Union pivo, quel che te vol dei) would be a great figade.

### **Conclusion**

Union and Laško are the pivos of all the triestins. Dene ancora. Some like Union, some like Laško, everybody like pivo. You may say that this is a paracul conclusion: obvious, in this way, when we will go to Laško, they will offer us a Laško, and when we will go to Union (ma come, no savè dove xe?), they we will offer us a Union. And we will be happy. W la Union, W la Laško and WLF.

### **Acknowledgements**

We thanks the anonymous muleta that ne ga contated the famous mod of dir “Te

bevi Laško and te pissi Union” and Mitja Primosig for the last two mod de dir that we didn't conoss.

We will thank the thermal stabiliment of Laško if they will make the Laško pivo vasc. Ah che pacchia ciò.

We thank Union pivo and Laško pivo for all the festins that we make drinking

them and for not denouncing us :P
